Oyen's Diamond Jubilee Celebration A Credit To Its Citizens

Flourishes make grand showing in parade. Flag drill and pageant at fair grounds win unstinted praise. Town gayly decorated with flags. Good crowd in spite of dull and showery weather.

Oyen Team Wins Ball Tournament

With a splendid program arranged for July 1, the committee in charge were faced with a trying problem of deciding whether to go ahead with the celebration as scheduled or postpone the event until July 2. Starting about 6 o'clock in the evening on Wednesday, June 29, rain commenced and fell continuously till about 6 o'clock Thursday evening, (totaling 1.38 inches) leaving the roads in such a condition that it was finally deemed advisable to postpone the celebration till Saturday.

Country points were advised by phone of the change in date, but quite a number arrived in town on Friday, which was a gloriously fine sunny day.

Feeling that the day was too good to be passed up, Ernest Thygesen with the assistance of a few kindred spirits staged a small parade of his own, which was given a very cordial reception. A ball game was staged in the afternoon as entertainment for those who had come to town, and two picture shows in the evening, followed by a dance in Oyen Theatre, were well attended.

On Saturday morning the weather was dull and cool, but shortly after 9 the crowd commenced to arrive in town, and by 11 a.m., the time scheduled for the parade to start, it was estimated that about 600 people lined the streets. The parade made an imposing spectacle passing the saluting base at the intersection of Main Street and First Avenue, where Constable Dobbin was stationed under the flag.

The floats gave evidence of painstaking care, and many of them would have made creditable showing even in a city parade, and while they did not all fit into the classifications suggested by the parade committee, they were of such merit the judges were instructed to award prizes as they deemed fit. The following were the awards:

First, "The Gateway" Wavy Plain School; 2nd, "Indian Tipi" Oyen School (Miss Walker); 3rd, Oyen Pageant Float; 4th, Canoe, Nebalta School; 5th, "Canada, Land of Tomorrow" Oyen School (Miss Colwell); 6th, "Pride of the West" (Mr. Wright); 7th, "The Oyen Bulbs" (Mrs. W. T. A. Walker's Sunday School tots); 8th, Benton Valley School; 9th, S. A. Miller.

Shortly after the arrival of the parade at the fair grounds, mass prayer was conducted by Rev. Father Lynett of the Sacred Heart Church. This was followed by an address by the mayor, Mr. George A. Morrison, after which the school children lead in the singing of "O Canada" and "The Maple Leaf". The flag drill and pageant was next given by pupils of Oyen Public and High Schools, each of which was exceptionally well staged and won thunderous applause. Then followed the singing of national anthem.

While the foregoing program was in progress, the weather turned cooler and rain threatened. During the lunch interval, showers fell and the sports program was delayed for over an hour, when the weather cleared slightly. A large number of miscellaneous sports for school pupils were staged, including horse and pony races, and in spite of intermittent showers, the participants appeared to thoroughly enjoy themselves.

A ball tournament in which Sedalia, Alask and Oyen competed, provided two exceptionally good games. Oyen and Sedalia opened the play in a snappy game, which was won by the home team. Showers fell during this game, but players and spectators alike, were indifferent to the rain.

The score by innings:
Sedalia 000 000 300—2
Oyen 000 002 010—4

The final game between Oyen and Alask proved a hard fought one with a real thrill in the last of the 6th, when, with the score standing at 1-1, one man on base and two gone, Chapin came to bat with a determined look in his merry eye. He swung at the first ball over—and hit it, man, how he hit it. It was still travelling when he passed 2nd, it was hopping along when he touched 3rd, and three players and two spectators were looking for it after he crossed home plate. Alask failed to respond in their half. Oyen added two more in the 6th to which Alask replied with 1. In the 8th Oyen added another tally and Alask staged a strong come back but were checked after registering 2 runs. Oyen added 1 more in the 9th and Jordan, who pitched a steady game held Alask hitless in their half.

Score by innings:
Oyen 000 122 011—7
Alask 000 001 020—4

This concluded the program at the fair grounds.

Three shows run continuously at the site in the evening proved a popular attraction. Those who were responsible for the program and worked so indefatigably for a successful day, the school pupils who took part in the parade, flag drill and pageant, and those who in structured and conched them, deserve the very highest commendation for the success of the celebration, which was one the citizens are justly proud of, and which will long be remembered by all who were present.

Oyen District Builders

Mr. J. M. George one of the outstanding men in the District Builders movement at Deloraine, Man., will be the guest of the Oyen District Builders, and speaker at their regular monthly meeting on Saturday, July 16. Everyone in the district is cordially invited to be present to hear him.

Coming: "The Music Master"

Irish Free State Making Progress As A Member Of The British Commonwealth

The only tangible bond linking together the members of the British Commonwealth of Nations since the Imperial Conference of last November is the British Empire, and the person of the King, but Ireland has other interests, important among them her economic status, which bind her to Britain, and the Commonwealth. Timothy A. Smiddy, minister of the Irish Free State to the United States, is in a public address at the University of Chicago, Mr. Smiddy delivered one of the Norman Wall Harris lectures on the general subject of the British Empire.

"We have co-operation and no coercion, and the bonds which bind the various nations are intangible," the Irish minister said. "Whether the symbols signifying membership in an association of free nations are bonds which attack or bend, which are to be determined by future experience. Since the establishment of the Anglo-Irish treaty we have been free to work out our national life in our own way without help or hindrance from any outside source whatever."

There has been no question of Great Britain in close contact with each other, which geographical continuity bestows for Ireland a relationship to Great Britain more intimate than that of any other member of the Commonwealth. This relationship is exemplified economically by the market for Irish commodities. For instance, 35 per cent. of the exports of the Irish Free State are consigned to Great Britain and 55 per cent. of the imports of the Irish Free State are from Great Britain.

Speaking of the progress that has been made by the Irish Free State as an autonomous member of the Empire, Mr. Smiddy said: "If one of the tests of self-government is the measure of its ability to secure its future stability, and to lay the foundations for an economic and cultural development, then it is the average citizen the opportunities for a full life, the people of the Irish Free State have already during the last five years amply justified their claim to be allowed to govern themselves."

Stubble Burning Found to Be An Expensive Operation Under Best of Conditions

Burning of stubble has been found to be of some value in the destruction of weeds by destroying the seed plants with their seed crops before they have entered the soil. Results of the experiment, however, showed that a running fire started with an oil burner can sometimes be obtained, making the acre cost burning very low, but a fire of this kind can be obtained only in heavy stubble, which usually contains few weeds. Weedy stubble that is cut is almost always short and thin and will not carry a continuous fire, which is necessary if the weeds are to be destroyed.

The 1926 report of the Swift Current Experimental Station, which can be obtained from the Publications Branch of the Department of Agriculture, Ottawa, gives illustrations of stubble burners at work. The machine is drawn behind a rack from which straw is fed into a wide firebox. The firebox is made of sheet iron and is equipped with patented grate-irons which slide over the stubble. A small gas engine is belted to a fan supplying a draft of air which blows the straw into the stubble. A 14-foot machine of this kind will burn from 2 to 3 acres an hour. Three men and four horses are required to keep it going. From 10 to 20 cents per acre was found to be the cost of the labor of men and horses, while the gasoline cost was an acre.

Further trials of this machine are being made before the Station is prepared to make any recommendations with respect to its efficiency.

A Scotsman paid his taxi fare and gave the driver a penny for a tip. "What's that?" growled the driver, holding the penny and glaring at it in disgust.

"You're a sportsman," said the Scotsman, beaming at him. "Taxis!"

That properties peculiar to Kray may be contained in the light of even by glowworms, is the opinion of some scientists.

Parkes—"So your wife decided to learn to drive, too?"

Parkes—"Yes, she won't stop at anything."

W. N. U. 1648

Stimulus of Nitrate Counteracts Drought

Top Dressing of Fertilizer Keeps Up Pasture in Mid-Summer

Top-dressing of pastures and meadows as a stimulus to growth during the summer months, is a practice followed by farmers in Britain and Europe that might find a wider application in Canada than it does at the present time. Midsummer droughts of considerable duration are not at all uncommon, and it should be worth while to provide the extra stimulus in the form of fertilizer, to counteract this. For top-dressing a quick-acting fertilizer is essential, and applications of nitrate of soda, at the rate of from 100 to 150 pounds per acre, given in two or three applications, have accomplished this admirably. In tests carried out on pasture plots at the Fredericton, N.B., Experimental Station, in 1925, the plots that received 200 pounds of nitrate per acre averaged 4253 pounds of clipped grass on a per acre basis; the plots that received 100 pounds of nitrate yielded 4250 pounds of grass, and the unfertilized pasture plot yielded only 3207 pounds. This was an increase of 1,746 pounds in the one case, and 1,953 pounds in the other. It was noted that in the fertilized plots the grass was thick and of a dark green color, and that weeds were not plentiful. In the unfertilized plots, on the other hand, conditions were just the reverse.

Applications of nitrate in the early summer—applied preferably just before a rain—should be effective in giving well-cropped pastures a new lease of life that should carry them over the droughty midsummer period.

Has Won Many Prizes

Largest Pig in World Weighs Over Half a Ton

Billy, the world's largest pig, is on view at an agricultural show in Johannesburg, and is insured for \$55,000. He is 8 ft. 3 in. long, 46 in. high, and weighs just over half a ton.

Billy has traveled 25,000 miles and is just back from a visit to Australia. He has a voracious appetite, and every day consumes four cases of apples, eight or nine buckets of malt, "two bushels of bran, 16 or 18 cabbages and a few 'odds and ends." Billy, who has won prizes innumerable, has a valet specially appointed to keep him groomed to reserve accommodation in trains and boats when he travels. His food alone costs \$10 a day.

Billy's owner has decided to send the British Museum after his death. The mammoth pig is only 28 months old, and a long and prosperous career still lies before him.

Egg Shell Not Fragile

An egg shell may be thin, but it is not fragile. An egg placed beneath the giant testing machine at the Bureau of Standards, Washington, withstood a pressure of 51 pounds before it was crushed. Two hundred tons was required to demolish a foot-square piece of lumber.

Detective—"Ah, we have a new cove."

Wife—"How could you tell?"

Detective—"I observed strange fingerprints on the pickles."

All snake venom is not alike. Some poison the blood and some cause paralysis of the diaphragm.

Saskatchewan Livestock Sales

Cattle Breeders' Association Hold Successful Sales at Prince Albert and Saskatoon

The Saskatchewan Cattle Breeders' Association sales which were held at Prince Albert on June 7 and 8, and at Saskatoon on June 9, were very successful. In all sixty-five head of pure bred stock were sold. The quality of the stock sold was good with the exception of a few individuals that did not sell. There was possibly too high a percentage of young yearlings bulls to obtain a very high average. The Prince Albert sale, which was held on June 7, had an average of \$112.50. The Saskatoon sale, which was held on June 9, had an average of \$110. The senior champion bull was sold by H. J. Hustache and sold to G. W. Grigsby, of Tisdale.

In the Aberdeen Angus classes the Junior and grand champion bull was sold by Wm. D. Lyon, of Dero, and was purchased by J. G. Robertson, of the department of agriculture, Regina.

The sale was handled by J. W. Durso, of Calgary, and the judges were John, of Edmonton, and Wm. D. Lyon, of Dero.

Thirty-one Shorthorn bulls changed hands at an average price of \$127. The Junior and grand champion was sold by the University of Saskatchewan, Saskatoon, and sold to John Gordon, of Regina, for \$215. The top price of the sale was received for the first prize senior yearling Shorthorn bull and was sold to the department of Indian Affairs for \$245.

The grand champion Aberdeen Angus bull was contributed by C. H. Wade, of Assiniboia, and was purchased by the livestock branch, Regina. The grand champion Hereford bull was purchased by the department of Indian Affairs, Regina.

The Holstein classes the aged bull, Strathmore Sir Donald Fairchild, contributed by John H. Clark, of Neudorf, was awarded the grand championship, and was sold to F. Walters, of Moose Jaw, for \$150. The new record buyers at these sales was the livestock branch of the department of agriculture, and Mr. Christensen, of the department of Indian Affairs, Regina.

Hard on the Cook

New Cook: I can't get the dinner the way you told me to, ma'am.

Mistress: Why not?

New Cook: Didn't you tell me to have roast beef and gravy?

Mistress: Yes, that's what I ordered.

New Cook: Well, the butcher sent up the beef but he didn't send a drop of gravy.

Mr. Henaley—"Today is your birthday, dear, and I have a surprise for you. Can you guess what it is?"

Mrs. Henaley—"I'm already surprised. That is the first time in ten years that you remembered I."

"Dust" from a blast furnace at an automobile manufacturing plant has been found to contain fifty per cent. iron ore, which is being reclaimed.

National Research Laboratories Will Assist In Applying Science To Industry In Canada

Canada Leading In Export of Wheat

Export of Wheat Will Be Greater This Year Opinion of French Expert

Louis Louis-Trevis, a French banker and grain merchant, who is one of the leading authorities in wheat, recently gave an address to the French-American committee in Paris in which he declared that Canada was the greatest wheat-exporting country in the world, that the grain from the Dominion had no equal in quality except some of the Russian cereal, and that supplies available from Canada would continue to increase.

With established agencies in all wheat-producing countries in the world, including an agency at Vancouver, which he personally visited last year, Mr. Louis-Trevis predicted that the exports of wheat from the United States, Canada and Argentina would increase to 15,000,000 tons in 1927, against 14,000,000 tons in 1926. Of this total he put the shipments from the United States at 4,000,000 tons, those from Canada at 5,000,000, and those from Argentina at 6,000,000. He termed these super-productive countries—countries that produced more than they could consume.

He expressed the belief that France eventually would produce enough wheat to supply the demands of its people, but some time hence.

Cost of Operating a "Combine"

Combined Reaper and Thresher Effects Considerable Saving

In a normal season the combined reaper-thresher will cut and thresh wheat, oats, barley, fall rye and flax at a considerable saving over the binder and separator. Investigations have been made on this point at the Swift Current Experimental Station, and the results are detailed in a pamphlet entitled "The Combined Reaper-Thresher in Western Canada." It was found that a sixteen-foot combine drawn by 12 horses will cut about 20 acres in a 10 hour day. Drawn by a tractor it cuts about 45 acres in the same time.

In the case of such a combine drawn by 12 horses and operating 20 days the cost per acre was \$15.00 or 9 cents a bushel on a 20 bushel per acre crop. In similar circumstances the cost of a tractor drawn machine was \$14.4 per acre and 8 cents per bushel. Compared with this harvesting with binder and separator cost 17 cents per bushel.

Community Hotels

Moore Jaw and Leithbridge have embarked on what is called a "community hotel" project, the idea being to raise by stock subscriptions from citizens funds sufficient to build and equip good, thoroughly up-to-date hotels in these cities. The company which looks after the selling of stock first assures itself that there is room for such hotel or hotels.

So many shillings are put into London gas meters that a coin shortage often exists until meters can be cleared and the coins put into circulation again.

The announcement from Ottawa of plans for the extension of scientific research in the National Research Laboratories will be welcome news to the business interests of the country. Canada has lagged far behind other nations in this work. In agriculture, research progress has been made. What has been accomplished has been worth millions of dollars to the country. But while other countries have added vast industrial wealth through research we have neglected to take advantage of opportunities which lie at hand, although Canada's industrial leaders have been keenly alive to the need and have urged Government action repeatedly.

According to the announcement, on a per capita basis, the appropriation made for this extension will place the Dominion in a position to compete with other countries. The United States, Germany and Great Britain are spending some yearly in applying science to industry and its standardization, thus securing the twofold advantage of eliminating waste and developing new products. The Dominion has spent here in developing new strains of wheat have returned fortunes. What is ahead in the reaping of harvests here in developing new strains of wheat is conducted along the proper lines may be imagined.

The establishment of national research laboratories available for the use of individual firms will open prospects which enterprises concerned with modernizing their manufacturing processes are able to install their own laboratories, but in Canada in particular are many not financially able to do this, but who nevertheless would welcome facilities for experimentation. These the Government will now provide. The cost of such facilities will be borne in small cost.

Not the least advantage to be in the premium which is thus to be placed on industrial enterprise. Business interests alert enough to take advantage of this opportunity will probably force upon their less aggressive competitors. There will be a new class of firms which will gain the benefit at small cost.

It is said that one of the objects of the visit in England of Hon. James Macdonald is to study British methods of research in the various industries. He will there have the benefit of years of experience. It is significant to learn that Canada is at last to fall in line with this progressive movement.—Moore Jaw Times.

Michigan Supplies More Settlers for Western Canada Than Any Other State

Other State

The state of Michigan is apparently supplying more settlers for Western Canada than any other state in the United States, according to figures submitted by Fred W. Kerr, Dominion immigration agent at Detroit, who has been in the west gaining first hand information of agricultural conditions here.

Many farmers have come from that state this year, he says. Last year, according to returns made public by U.S. authorities, Michigan sent 2,861 of the total of 21,925 farmers who left the States to take up land in Canada.

Develop Gold Claims

Thirty-Four Gold Claims to Be Developed in Saskatchewan

Development of 39 gold placer claims in the Watrous Lake district of Saskatchewan is proposed by Edward Tisdale, Canadian-born prospector, and H. C. D. Davies, a prospector now on route to the northern hinterland. Hon. T. C. Davies, Saskatchewan Minister of Labor and Industries, arranged for William Hastings, Provincial Geologist, and Professor Worcester, of the University of Saskatchewan, to join the expedition. Dr. Cameron, Edmonton geologist, will also join the party.

Minister: I hear, Paddy, they're gone dry in the village where your brother lives.

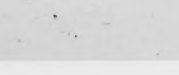

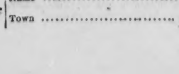

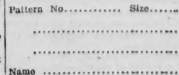

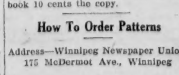

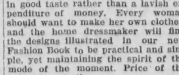

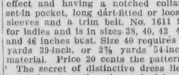

Paddy: Dry, mon? They're parched. I just had a letter from Mike and the postage stamp was stuck on with a pin.

Dave—"What is the term applied to one who signs another person's name to a cheque?"

Ted—"Oh, ten to twenty years."

A writer suggests that most bald-headed men have thin noses. Only the brave preserve the hair.

WORLD HAPPENINGS
BRIEFLY TOLD

The Duke and Duchess of York received a warm welcome home upon their arrival at Portsmouth, June 27, after their six months' visit to Australia.

The Council of the League of Nations decided to invite the United States to the League's third international transit conference at Geneva, Aug. 24.

Three persons were killed when an aeroplane fell 2,000 feet in the outskirts of Winnipeg, N.D., in an effort to restore the hearing and speech of a deaf mute.

Canadian employment conditions at the beginning of June showed a more favorable aspect than in any other month since 1923. Approximately 42,846 more workers were employed on June 1 than on May 1.

Twenty "so-called" Irish noblemen have been arrested and hounded and their property including some 20,000 sheep, confiscated because of the former Cartist affiliations of the so-called noblemen.

Jugo Slavia has an aspirant for trans-Atlantic flight honors. The newspapers say that the aviator, Bostitchewich, is making preparations for a flight from Belgrade to New York in the near future.

The population of Ontario for the calendar year was 3,100,000, the latest vital statistics report issued by the provincial government shows. The urban population is given as 1,474,150, and the rural population 1,625,851.

Two hundred and seven persons in the United States paid taxes on incomes of \$100,000 and over for the calendar year of 1925. This compares with 15 in 1924 and 206 in 1916, the previous high mark.

Ion "Radopolis" Lenculescu, Speaker of the Canadian House of Commons, was unanimously elected by the Parliament of Moral and Political Science, as the foreign visitor to the academy in place of the late Cardinal Mercier of Malines, Belgium.

Deity men from the four western provinces will gather in Regina for the western Canada convention to be held Feb. 7-10, 1926. The board of directors of the Saskatchewan Dairy Association decided on this at its meeting held recently.

Gift for Lady Willingdon

Winnipeg General Hospital Presenting Model of Spanish Ship
Directors of the Winnipeg General Hospital and members of the Provincial Government are making a presentation to Viscountess Willingdon of a silhouette model of a 15th century Spanish caravel. The work on the model has been done by the occupational therapists of the hospital. The model is a gift from the hospital to the Viscountess Willingdon, on the occasion of her recent visit to the city, remarked on the efficient workmanship on the model, which is a replica of a famous ship, "La Reyna Isabella." As a token of regard and appreciation of her first visit to the city the government and hospital board decided to make the presentation.

Honor Two Canadians

Alaskan Peaks Named After Fawcett and Simpson
The naming of two mountains on the British Columbia-Alaska boundary in honor of two Canadians has been officially recognized by the United States Geographic Board in a recent decision.

After the late Thomas Fawcett, D.T.S., Canadian section, a mount on the international boundary between British Columbia and Southeastern Alaska has been named Mount Fawcett. It is 15 miles southeast of the shore of Sitka River.

In honor of the illustrious Simpson, member of the Canadian section, international boundary commission, a mount 6,182 feet high has been named Mount Willibert. It is 13 miles southeast of the Yukon River.

Both Were Mistaken
Playing over an Irish lanka, a clericoided lost his ball and accused his caddy of having stolen it. When a moment later it was found the golfer began an apology: "Arrah, myr nall at all, at all," said the boy. "You thought I was in trouble and I thought you was galleman," he begged, to the both made a mistake.

In 1924, more ships passed through the Panama Canal than at any time since its opening. There were 5,230 during that year.

Justice may be blind, but she has a good memory.

Will Tour Canada

Delegates to World's Poultry Congress

to See Dominion

Delegates from forty nations at

tending the world's Poultry Congress

in Ottawa, July 27 to August 1, will

make a tour of Canada from coast to

coast immediately following the Con-

gress, preliminary announcement of

the tour being made from the World's

Poultry Congress office at Ottawa.

The tour will be made by special

train leaving Ottawa on August 1 and

covering first Quebec and the Mar-

time provinces as far east as Halifax,

Nova Scotia. The special train, with

four Western Canadian, including

spots in the Rocky Mountains, at

Vancouver and Victoria and other

points en route. Upon their return

the delegates will visit Niagara

Falls, and the party will disband at

the Canadian National Exhibition at

Toronto, on August 31. This tour of

approximately eight thousand miles,

which has been arranged through the

co-operation of Canadian Government

Departments and the Canadian Rail-

ways, will afford prominent visitors

from many lands an opportunity to

gain an impression of Canada's extent

and resources which would not have

been possible had their visit been

confined to this World's Poultry Con-

gress in Ottawa. About three thou-

sand delegates from the United States

are expected to attend the Congress,

a number of whom will be included in

the party making the tour of Canada.

Britain Must Guide Egypt

Empire's Highways Depend on Suez

Canal Says Hume

"Since Egypt must be guided to

government by a foreign nation, we

must be that foreign nation," declared

Sir Cecil Hume, legal advisor to the

British ministry of foreign affairs in

an address before the English

speaking and the Chicago

council of foreign affairs at Chicago.

"Because the Suez Canal is the

approach to our Australian

continent and the Far East," Sir

Hume added, "through Egypt to the high-

ways, arteries and living veins of

British life, we must control them."

"It was the serious duty of his life

that he chose to commit a crime in

his dominion," declared Mr. May.

Development of scientific methods

of crime detection and coordination of

all law enforcement agencies

through central state and provincial

bureaus was his message. It was in

such co-operation as found in Canada

that Nelson, the suspected

stranger, had been apprehended.

"It was the serious duty of his life

AVIATORS LAND IN HAWAII AFTER AN EPIC FLIGHT

Wheeler Field, Island of Oahu, Hawaii.—First to make the 2,400 mile air journey San Francisco and Honolulu, the army fliers, Lieutenants Lester J. Matland and Albert Hegenberger arrived here after finishing their long flight in 25 hours and 42 minutes.

Throughout the trans-Pacific hop they had been reported as only once, by the steamer Sumner, when 750 miles from the California coast.

The army fliers came in through rain clouds that had cleared away the rain clouds of the night that shrouded their landing place.

Thousands who had waited through the long night had begun to disperse when Matland and Hegenberger came through the haze to the landing.

In their flight of approximately 2,400 miles Matland and Hegenberger completed the longest trans-oceanic airplane flight ever accomplished. The landing was made on a rain soaked field, but they had traveled the entire length of the field. Then circling, it came back to the front of the review stand where the highest army, navy and air authorities in the island were waiting to extend congratulations to the fliers.

The crowd, augmented by hundreds hurriedly returning to the field, went wild with joy and enthusiasm, guns of fortresses thundered in salute as the plane stopped before the review stand.

Major-General Edward M. Lewis, commander of the Hawaiian department of the army, clasped hands with Matland and Hegenberger, the eyes of both aviators filling with tears, as he said:

"My boys, I congratulate you."

Matland said that the rapid ascent on the island of Maval failed to function.

"Our compass, he said, 'is what got us here. If we had not had that we would have been out of luck.'"

When asked whether they were tired and hungry both fliers admitted that a cold chicken sandwich would appeal to them.

"We had some coffee and sandwiches, but we could not find them, although we looked all over the plane while travelling," said Matland.

Hegenberger said: "Sure we had no bad weather on the trip. Indeed we had no troubles but we feel great satisfaction in having made the dash."

Believes Strike Is Imminent

C.N.R. Employees Vote in Favor of Action Says Report

Montreal.—Despite the offer of the Canadian National Railways giving increases to some 18,000 employees, a strike of these workers is believed imminent. J. E. Maguire, general chairman central region, Canadian Brotherhood of Railway Employees, said that he had received information from the strike vote taken recently were overwhelmingly in favor of a strike, it was said at union headquarters.

Hungary's Wheat Crop Less

Ottawa.—According to a cablegram received from the International Institute of Agriculture at Rome, the wheat crop of Hungary is 65,784,000 bushels as compared with 69,500,000 last year and 71,671,000 in 1925. The cablegram also states that Hungary's crop was 2,551,000 bushels against 2,615,000 in 1924, and 2,225,000 in 1925.

Authorized to Fire Salutes

Ottawa.—Parliament has been asked to the list of salutes at which authorized salutes are fired on certain authorized occasions including Royal birthdays on the sovereign's birthday and Dominion Day, according to an announcement by the department of National defence.

Might Impact League's Mission

Geneva, Switzerland.—Great Britain has withdrawn her proposal for an investigation of the proper sphere of League of Nations' activities, seeing that she feared the league would be harmed by indiscriminate acceptance of new tasks, which would obscure its high mission to maintain peace.

Canada's Trade Increase

Montreal.—Canada trade all nations in increased during 1925, according to statistics compiled by the National Foreign Trade Council of New York. The figures show that Canada's increase was 85 per cent, Australia coming next with 45 per cent, and the United States third with 21 per cent.

W. N. U. 1688

Crops Doing Well

Favorable Crop Report Covering All Western Areas

Winnipeg.—Since the completion of seeding operations weather conditions have been entirely favorable and crops are doing well almost everywhere, according to the weekly report issued by the Agricultural Department of the Canadian Pacific Railway. Earlier snow grains are practically as far ahead as at this time last year, and the grain season is about a week ahead. A considerable percentage of the crop was put in unusually late, but with present weather conditions maintaining the rapid and healthy growth there should be no question of harvesting the crop within time this fall.

Cutworms have caused damage of a minor character at a few points, but the loss in this respect does not nearly approach the average. Hail has beaten down the crops over limited areas in a few localities in Saskatchewan and Alberta, but the grain was not seriously injured and is permanently injured. The noticeable feature this year is found in the fact that there is no breaking of undergrowth, and the farmers are taking every advantage of the satisfactory soil moisture conditions.

Welcome Return of Royalty

Duke and Duchess of York Are Home After Six Months' Tour

London.—The British newspapers were filled with enthusiastic welcomes to the Duke and Duchess of York upon their return from their six months tour of New Zealand and Australia. In connection with the welcome are many references to the self-sacrifice of the Duchess of York in having left her infant daughter, Princess Alice, behind, for so long a period. One writer says this gives the Duchess a link at common understanding with all those other British wives and mothers whose husbands are called to visit or make homes in the outposts of the empire, who must choose between their husband and children.

Chinese Nationalists Suffer Defeat

30,000 Casualties Reported After Four Days' Fighting

London.—A Shanghai dispatch to Exchange Telegraph says the Chinese Nationalists met suffering the heaviest defeat of the war at Suichow, North Western Kiangsu province.

Attacked by General Sun Chuan-ping and his Shantungese troops, they evacuated the city after four days fighting, in which they lost 30,000 men, mostly killed, and retreated 30 miles to Pengtu.

Killed in Air Crash

Flight Lieut. Anderson in Fatal Accident at High River

Calgary, Alta.—Flight Lieut. C. N. Anderson, Royal Canadian Air Force, was instantly killed when his plane crashed and burned at the High River Federal air patrol station.

The accident occurred as the flier was landing in formation, a test flight for the Jubilee Celebrations being in progress.

The wrecked ship immediately burst into flames.

Anderson was 25 years old, unmarried, and his family resides in the Brandon district.

Dr. Hazel Passes

Ottawa.—Dr. George Hazel, 69 years superintendent and director of sales, died here recently, aged 86 years. He was internationally famous and held a number of degrees from Canadian and American universities.

Seed Company Changes Hands

Regina, I. R. Robinson, western manager for the Steele-Higgs Seed Company, Limited, has announced the purchase by the Steele-Higgs Company of the Canadian interests of the D. M. Perry Company, Windsor, Ont. The purchase gives the Steele-Higgs Company a total calling list of 24,000 merchants, while the D. M. Perry Company will concentrate its efforts in the United States.

Famous Explorer for Japan

He has been shown on board the Canadian Pacific liner Empress of Asia just before leaving for Yokohama from Vancouver, B.C. With him in the photograph are C. B. Stahlschmidt, Norwegian consul at Vancouver and R. L. Prenter, of the Vancouver Harbor Commission. It is understood that Captain Amundsen is merely taking a holiday trip.

Robbers Destroy Nod Paintings

London.—Scotland Yard detectives are searching for the 15,000 robbery of the home of Colonel Harry Day M.P., in which the thieves slashed four valuable paintings, one the old Dutch, the hand-off king in 1698 inscribed "To Harry Day from his sincere pal, Harry Houdini." Colonel Day said he could not imagine a motive for the vandalism.

Bill Given Second Reading

London.—Second reading was given to the bill of lords to the Workmen's Compensation "Transfer of Funds" bill, under which compensation for beneficiaries in one part of the Empire may be transferred to the country in which they reside. The bill arose from a resolution passed by the Imperial conference last year.

Increased Acreage in B.C.

Vancouver, B.C.—Agricultural progress in this part of the province is attracting a good deal of attention. It is now reported that 70 acres of corn raising plots will be set out this season.

Increase in Coal Output

Vancouver.—During the first four months of the year the coal mines of British Columbia produced 544,250 long tons, an increase of 14,829 compared with the similar period of 1924.

Retains Premiership

HON. JOHN BRACKEN, Premier of Manitoba, whose Government is returned to power.

HON. JOHN BRACKEN, Premier of Manitoba, whose Government is returned to power.

TWO CLASSES FOR CRUISERS URGED NOW BY BRITAIN

Geneva, Switzerland.—Great Britain proposed to the technical committee of the maritime naval conference that the criteria be divided into two classes, one of 10,000 tons carrying eight inch guns and the other of 7,500 tons with six inch guns.

The United States and Japanese delegations requested time to examine the proposal "in the light of the effect it would have on the navies of each power concerned during the life of the treaty."

Some observers have expressed fears that the tripartite naval conference has reached a critical stage because the British and United States representatives have not yet been able to come together on the question of reopening the Washington treaty.

The Japanese have announced their intention to support the British view on the question of limitation of the size and armament of battleships, consideration of which would mean re-discussion of problems thought to have been solved by the Washington treaty of 1922.

The determination of the United States delegates to restrict the conference to the scope outlined by President Coolidge's invitation to the powers remains unchanged.

Makes Parachute Descent

Toronto Girl Drops From Aeroplane At One Thousand Feet

Hamilton, Ont.—Miss Caroline Styles, a Toronto office clerk, went what is known to be the first parachute descent from an aeroplane by a woman in Canada here when she jumped off an aeroplane 1,000 feet up in the air and made a perfect landing on the top of a mountain. Miss Styles had been in an aeroplane at one time before. It is likely she will be expected to repeat the stunt daily at the Canadian National exhibition in Toronto.

Novel Flight Planned

London.—Mayor Moore announced that an invitation would be broadcast immediately to aviators to qualify for a non-stop flight from London, Ont. to London, England, for a prize of \$5,000 to be provided by a local brewery. A machine for the flight will be purchased by the same concern and handed over to the aviator as soon as suitably qualified, preferably a Canadian, has been found to undertake the trip.

Favor Amalgamation

Vancouver, B.C.—Ratepayers of Vancouver and South Vancouver by overwhelming majority voted in favor of amalgamation of the city and the municipalities of South Vancouver and Point Grey.

Receives Peace Prize

Oso, Norway.—Foreign Ministry Stresemann award has arrived here to receive the Nobel peace prize for 1925 which he shares with Foreign Minister Brandt of France.

Robbers Destroy Nod Paintings

London.—Scotland Yard detectives are searching for the 15,000 robbery of the home of Colonel Harry Day M.P., in which the thieves slashed four valuable paintings, one the old Dutch, the hand-off king in 1698 inscribed "To Harry Day from his sincere pal, Harry Houdini." Colonel Day said he could not imagine a motive for the vandalism.

Bill Given Second Reading

London.—Second reading was given to the bill of lords to the Workmen's Compensation "Transfer of Funds" bill, under which compensation for beneficiaries in one part of the Empire may be transferred to the country in which they reside. The bill arose from a resolution passed by the Imperial conference last year.

Vancouver.—During the first four months of the year the coal mines of British Columbia produced 544,250 long tons, an increase of 14,829 compared with the similar period of 1924.

UNITS OF EMPIRE AS ONE IN TIME OF COMMON PERIL

Chicago.—The British family of nations may be much more united than they are at present, but they will meet an outside menace when a united front, Sir Cecil Hurst, head of the British Empire League, told a University of Chicago audience during the second of a course of lectures on "Problems of the British Empire."

In this line the claims of empire to be a total unit and international though Canada powers might question the reasonableness of treating the empire as a unit in strength of the common allegiance to one king, Sir Cecil Hurst said.

"Families cannot be made by contract; they cannot be made or unmade by mere agreement of their members. The British empire has grown up together and as they become stronger, they may have become more self-contained, more able to stand alone; but the ties which united them to the parent state remain intact."

British nations, Sir Cecil declared, will continue to act together in force, even because the spirit of the British autonomy is based on the admission that questions affecting the whole group cannot be left to one member of the group to conduct with no reference to others.

Equality of states among nations, as among individuals did not mean early man equality of stature, wealth or temperance. In the British Empire equality meant the absence of any power of control by one country over another. Some inequalities still exist between the powers of the British and Dominion governments but these were being swept away.

Newspaper Men Elect Officers

Mr. Sam Wynn, Yorkton, New President of Weekly Newspaper Convention

Yukonville, Ont.—Sam Wynn, Yorkton, Sask., was elected president of the Canadian Weekly Newspaper Association at the concluding session of the annual meeting here. Other officers are: First vice-president, R. B. Andrew, Cambridge, N.B.; second vice-president, Hugh Savage, Durban, N.C.; directors include: British Columbia, R. E. White, Kamloops; H. G. Parsons, Edmonton; Alberta: Charles Clarke, High River; A. E. Embs, Leduc; Saskatchewan: C. R. Macdonald, M.P., North Battleford; D. C. Dunbar, Estevan.

Canadians All

Mr. Cartier Says Canadian Is a Title to Be Proud Of

Toronto.—After 68 years, Mr. Milne Cartier, daughter of one of the Fathers of Confederation, Sir Georges-Etienne Cartier, returned to Toronto. She was born in 1854 and 1925. When she was a child she lived in Quebec at that time she was with her father, and until today has never seen Toronto since.

Madame Milne Cartier came from France as the guest of the Canadian Government to attend the celebration of the diamond jubilee of Confederation.

"This thing I do hope to see soon is the subjective 'Père' dropped in French-Canadian," she said. "I think everyone should be just plain Canadian and let it be a title which every one should be very proud."

"I'm going through to the West and I am eager to get a better view of the country. My father had a wonderful head dress and belt given him by the Indians."

Transfer of Military Units

Several Western Units Will Change Location

Ottawa.—Re-location of a number of military units throughout Canada is announced by the department of national defence.

The Westminster Regiment, "C" Company, has been transferred from Mississauga to New Westminster, B.C.

The Asolo-Bia Regiment, "C" Company, has been transferred from Manitoa to Indian Head, Sask.

Canadian Machine Gun Corps, No. 3 Company, machine gun battalion, has been transferred from Nanaimo, B.C., to Mississauga, Ont.

Robbers Destroy Nod Paintings

London.—Scotland Yard detectives are searching for the 15,000 robbery of the home of Colonel Harry Day M.P., in which the thieves slashed four valuable paintings, one the old Dutch, the hand-off king in 1698 inscribed "To Harry Day from his sincere pal, Harry Houdini." Best Opening For Aviation In Canada

Vast Distances Make Time Saving a Distinct Need

Calgary.—This year's new, successful trans-Atlantic flights have given a tremendous impetus to the development of air transportation, and many eyes are being turned to the vast distances between the United States and Canada during the next few years in the opinion of H. P. Macdonald, head of the Ryan Airlines Inc., San Diego, holders of the "Spirit of St. Louis," the monoplane in which Colonel Charles A. Lindbergh made his epoch-making flight from New York to Paris.

"Advances made in the science of flying during the past few years need only to be brought to public attention," he said and went on to state that "transportation by air when properly controlled is at least as safe as any other means of transportation."

He attributed the slow adoption of the flyer in the vast amount of publicity given accidents in it and the newness of the science. "An aeroplane passenger may be scratched in some accident and because of that appears in big headlines, while a railway accident in which 20 are killed is not given half the attention," he said.

"What is the greatest problem waiting to be solved by flying men today?" he was asked.

"I would say that unquestionably it is the establishment of airports, air stations, equipment for night flying and the development of emergency landing fields," he replied. "This is up to the various towns and cities and the Governments of the Provinces of Canada, the United States and Federal Governments."

"Canada," he said, "has the biggest openings for aviation of any country in the world. It is a country where the factors of time saving and vast distances are involved and a distinct national need."

"Canada," he said, "has the biggest openings for aviation of any country in the world. It is a country where the factors of time saving and vast distances are involved and a distinct national need."

Dusting Wheat Fields

Will Use Aeroplanes to Control Dust from Spreading Grain

Paris, N.B.—Aeroplanes for dusting wheat fields with "rocks," a chemical with which experiments are being made in the hope that it will prevent or control black stem rust on wheat, will be based on an extensive tour of Manitoba and other provinces, a smaller way in case Ontario, North Dakota, it was learned here.

T. M. Shields, officer of the Royal Canadian Flying Corps, spent Sunday here on route from Philadelphia to Winnipeg, where he was en route, which he will use in dusting fields in Manitoba. It is planned to treat about 8,000 acres in the Canadian provinces.

Walter H. Reed, who is to make material observations on his farms near Chaffin, N.D., continued here. Mr. Shields regarding the proposed Canadian experiment. Mr. Reed will have experiments made on three different kinds of wheat, which are about 10 to 15-acre tracts of each.

Bans Milk From Montreal

Health Commissioner of New York State Issues Strict Orders

Saratoga Springs.—Health officers throughout New York state have been directed by Dr. Matthias Nicol, Jr., state health commissioner, to exclude from their districts all importation of milk and milk products originating in Montreal or in the vicinity of the Canadian metropolis.

In his warning, issued at the opening session of the annual state convention of public health officers here, Dr. Nicol said that Montreal was in the grip of the greatest typhoid epidemic of modern times. In a population of 700,000 there have been over 7,000 cases of the disease, with a death rate of eleven per cent and a disability rate of 50 per cent.

The disease has been an epidemic since January, he said. It was milk borne epidemic and mounted apparently from a pasture feeding plant in the city.

Ship License Cancelled

Panama—Panama Consul Morris at Vancouver, B.C., has been ordered to cancel the Panama registry of the ship Federally which some time ago was seized by the American prohibition authorities and later released on the order of a Federal court.

The Panama order was based on the non-payment of \$115 due to the National treasury for taxes. Mr. Morris reported that cancelled of the Panama registry had been solicited by the owners of the vessel.

Increased Acreage in B.C.

Vancouver, B.C.—Agricultural progress in this part of the province is attracting a good deal of attention. It is now reported that 70 acres of corn raising plots will be set out this season.

Increase in Coal Output

Vancouver.—During the first four months of the year the coal mines of British Columbia produced 544,250 long tons, an increase of 14,829 compared with the similar period of 1924.

About Town and Country

Mrs. F. L. Aylesworth left
yesterday for Edmonton, where
he will be on the staff of the
Department of Education, su-
pervising the marking of exam-
ination papers.

Mrs. F. L. Aylesworth left
yesterday for Ontario, where
she will spend a vacation visit-
ing relatives.

Miss May Mitchell of Lloyd-
minster, Sask., arrived in Oyen
yesterday and is visiting her
sister Mrs. C. J. Gillespie.

Miss Josephine Love took
over the duties of night op-
erator at the local telephone ex-
change, commencing July 1.

Miss Louise Charbonneau,
who spent the Jubilee holidays
with her grandparents, Mr. and
Mrs. J. C. Desso, returned to
Calgary last Monday.

Mr. and Mrs. E. N. Charbon-
neau and family of Monitor,
where town visitors last Fri-
day.

Born-To Mr. and Mrs. A.
Caudle of Oyen, on June 29, a
son.

Born-To Mr. and Mrs. G. B.
Lockhart, at Oyen Hospital, on
Friday, July 1, a son.

Dr. and Mrs. H. C. Swartz-
lander and family, and Mrs. H.
C. Swartzlander, Sr., left last
Friday for Sylvan Lake, where
they will spend a month's vaca-
tion.

Master B. Perry has been
confined to bed at the home of
Mrs. and Mrs. R. E. Gillespie,
since his fall from the stand at
the Fair ground on July 1.

One of the new plate glass
windows of Chas. P. Snyder's
establishment under course of
construction at the corner of
Main Street, cracked this
morning. The genial Charles
is taking the accident very
philosophically and assures us
that the price of Ford's will not
be raised on this account.

Mr. Davis of Sibbald under-
went a minor operation on his
hand in Oyen Hospital recent-
ly.

Miss Dorothy Love, who
spent the Jubilee holidays in
Oyen, returned to Saskatoon
last Sunday. Miss Love has a
position with the Imperial Oil
Co., in the city.

Miss Glennell Colwell and her
sister Miss Grace Colwell, left
last Sunday for Edmonton,
Alta., where they will spend a
day before proceeding to Ed-
monton to mark examination
papers.

Miss J. Patterson, of Oyen
Hospital staff, returned to
Oyen last Sunday, after spend-
ing a vacation at Medicine Hat.

Don't forget the regular
monthly meeting of Oyen Dis-
trict Builders Association, on
Saturday, July 10, Luncheon
6 p.m. till 7:30 p.m., followed by
address.

Kerr & May unloaded two
reaper threshers last week.

Mr. Gus Finstad, who is suffer-
ing from blood poisoning in
the right hand and forearm, is
attending hospital daily for
treatment.

Mr. and Mrs. William Irvine
left last Monday for Calgary
where Mrs. Irvine will visit
her husbands parents. Mr. Ir-
vine left the following day for
Edmonton, where he will mark
examination papers.

Mrs. J. P. Kerr who has been
spending the winter months in
Calgary, returned to Oyen last
Thursday with Christine and
her infant son.

Mr. E. P. Barbour and his
brother-in-law, Mr. W. Hunter,
arrived in Oyen from Saskatoon
last Saturday. They left on
the return trip by car on Mon-
day afternoon, when they were
accompanied by Mrs. Barbour
and family.

Mr. Karl Venn returned to
Oyen last Wednesday, after
spending his summer vacation
at Tisdale, Sask.

Under instructions from Mr.
H. F. Kidd, I will sell at public
auction miscellaneous farm
stock, machinery and house-
hold effects at the E. J. 21-26-4,
8 miles south of Oyen, on Fri-
day, July 8. Sale to commence
at 1 p.m. B. H. Dial, auctioneer.

Mr. Norman E. Jackson of the
Bank of Toronto staff at
Oyen, left last Thursday for
Saskatoon, where he will act
as relief manager for three
weeks, and afterwards go on
his summer vacation. He will
return to Oyen about August 8.

Look at your address label!

OBITUARY

Mrs. Frank Harrison

A large crowd assembled on
Wednesday afternoon at 2 p.m.
to pay their last respects to the
memory of another dear sister,
who has been called home.
Mrs. Frank Harrison passed
her rest on Monday, June
27th, after years of patient suf-
fering. Miss Henrietta Martha
Boys was born in London, Eng-
land, 52 years ago, where she
became a school teacher. She
was married to Mr. Frank Har-
rison 22 years ago, when they
came to Canada to make their
home, moving into the Sibbald
district in 1910. Mrs. Harrison
was confined to her bed for
nearly 12 years, during which
time she endeavored herself to
help her friends and neighbors by
her patience and sweetness un-
der much suffering. Her great
love for beauty was expressed
in many dainty and artistic
gifts, which are treasured by
her many friends as her own
handiwork.

She leaves to mourn her loss
a husband and two sons, as
well as a brother and sister,
Mr. Nicholas John Boys of Eng-
land, and Mrs. Mitchell of Big-
gar, Sask.

The esteem in which she was
held was shown by the lovely
flower tokens, from the follow-
ing friends: From Husband and
family; Sibbald Women's In-
stitute; Mr. and Mrs. Graham
and Miss Campbell; "Marjorie";
Mr. and Mrs. L. U. H. H. H.;
Mr. and Mrs. G. B. Speer; Mr.
and Mrs. W. Linklater and Mr.
and Mrs. H. M. Ball; Mr. and
Mrs. H. Hunter; Mr. and Mrs. C. F.
Davies; Nora and Joan Hale,
Medicine Hat, Alta.; East-
man, Hoenig and Youell.

Rev. F. S. Smith of the Angli-
can Church in Alaska officiat-
ed, and spoke very impressively
on Christ's words to Mary "He
is not dead, but sleepeth."

TO MEET DEMPSEY

The match between Jack Sharkey
(above) and Jack Dempsey will at
last definitely take place on July
1st, at the Yankee Stadium. Tex
Richard, the well known promoter,
confidently expects a crowd
amounting to 15,000,000, of which
each of the principals will get 25
per cent.
